*(An Employer's Industrial Relations Manual On Leave
And Absenteeism Issues At The Workplace)*

The book “Leave and Absenteeism in Employment (*Cases, Commentary & Materials*)”, is the **FIRST** Industrial Relations book and one of its kind in Malaysia that provides guidelines and explains concepts on leave and absenteeism based on landmark cases, legislation and other authoritative sources.

How do you deal effectively with problems pertaining to leave and absenteeism in a workplace?

MEF has an answer to that. With our latest publication “*Leave & Absenteeism in Employment (Cases, Commentary & Materials)*”, we believe that it is an important *reference manual that guides employers* on how to deal with employees’ leave and absenteeism problems from the legal and industrial point of view. This 352 page book is an exclusive handbook on leave and absenteeism for HR managers and practitioners. The book includes *explanatory notes and guidelines on every aspect of leave and absenteeism* based on Malaysian and foreign cases, legislation (Acts) and authoritative sources such as Br Ghaiye’s *Misconduct In Employment* and Alfred Avin’s “*Employees’ Misconduct*”. Also, from more than 10,000 cases between 1947 to 2007, we have *analysed, selected and summarised* 99 landmark cases from the Industrial Court and Higher Courts of Malaysia, as well as some judgments from the UK and India for your research purposes.
