

PERSONAL DATA PROTECTION ACT

Personal Data Protection Act

27 AUG 2025 | 9.00AM - 5.00PM | MEF ACADEMY TRAINING CENTER

The Personal Data Protection Act (PDPA) 2010 is a key piece of legislation in Malaysia that governs the collection, use, disclosure and storage of personal data in commercial transactions. This comprehensive training program is designed to equip participants with a solid understanding of the legal and practical aspects of data protection under the PDPA, ensuring compliance and promoting responsible data handling within their organizations.

Throughout the training, participants will explore the Personal Data Protection Principles, the rights of data subjects and the obligations placed on data users and data processors. Real-world case studies, interactive discussions and practical examples will be used to illustrate how the law applies in everyday business operations.

Who Should Attend

- Senior Management & Executives
- IT & Data Security Personnel
- Legal and Compliance Officers
- Human Resource Professionals

Learning Outcomes

- Understand the key principles of the Personal Data Protection Act (PDPA) and how they apply in daily business operations
- Identify personal and sensitive data and handle it appropriately in compliance with legal requirements
- Recognize the rights of data subjects and respond correctly to data access or correction requests
- Apply best practices for data protection to reduce risks of data breaches and ensure organizational compliance
