

# Harness The Power Of Generative AI For Accounting & Finance Professionals

29-30 Sep 2025 | 9.00AM - 5.00PM | MEFA Training Center, PJ

## Objectives

*This two-day interactive workshop introduces accounting and finance professionals to the capabilities and benefits of Generative AI. Participants will explore how AI can transform financial processes, from automating routine tasks like report generation to enhancing decision-making through AI-powered analysis. The course also covers ethical and privacy considerations, ensuring that participants are well-versed in implementing AI responsibly..*

## Who Should Attend

- Finance and Accounting Professionals
- Financial Analysts
- Risk and Compliance Managers
- CFOs and Financial Managers

## Learning Outcomes

- How to automate financial reports using tools like ChatGPT, streamlining workflows and increasing productivity.
- The ability to create AI-enhanced financial forecasts and conduct scenario analysis
- Strategies to implement AI for fraud detection and risk management in finance
- How to build Custom GPTs tailored for finance-specific tasks such as compliance automation and investment research.
- Understand the ethical and privacy issues involved in AI deployment
