

# CREATIVE THINKING FOR THE MODERN MIND

31 MARCH 2026 | 9.00AM - 5.00PM |  
MEFA TRAINING CENTER, PJ

## Course Overview

In today's fast-paced work environment, strong critical thinking and decision-making skills are essential for solving problems effectively and making informed choices. This training equips participants with practical techniques to analyze information objectively, challenge assumptions, and apply structured decision-making strategies.

Through interactive discussions and real-world exercises, participants will learn to identify biases, evaluate risks, and develop solutions that drive better outcomes. By the end of the program, they will be able to approach challenges with clarity, make confident decisions, and enhance workplace efficiency.

## Who Should Attend

- Managers & Supervisors
- Team Leaders & Project Leaders
- HR & People Managers
- Executives & Business Professionals
- High-Potential Employees (Future Leaders)
- Anyone in Decision-Making Roles

## Learning Outcomes

Participants will be able to :

- Understand the principles of critical thinking and its impact on effective decision-making
- Identify common cognitive biases and logical fallacies that hinder objective thinking
- Analyze problems systematically using structured frameworks and problem-solving techniques
- Apply critical thinking strategies to evaluate information, assess risks, and make well-informed decisions
- Enhance decision-making skills by using logical reasoning, data-driven analysis, and critical thinking techniques
