

OCCUPATIONAL SAFETY AND HEALTH (AMENDMENT) ACT 2022 - Guide for employers

17 AUGUST 2026 | 9.00AM - 5.00PM |
MEFA TRAINING CENTER, PJ

Course Overview

This course offers a clear and practical understanding of the latest amendments to the Occupational Safety and Health (OSH) Act 1994. Designed for employers, supervisors, safety practitioners, and HR professionals, it highlights key changes to legal duties, employee rights, enforcement powers, and reporting requirements. Participants will gain insight into new provisions, updated terminologies, strengthened compliance obligations, and revised liabilities for offences. Through a structured, topic-focused programme, the course equips participants with the knowledge needed to meet current OSH standards, enhance workplace safety management, and ensure full regulatory compliance under the OSH (Amendment) Act 2022.

Who Should Attend

Human Resources Manager, appointed member of the safety and health committee and person in charge of OSH program.

Learning Objectives

Participant should be able to :

- Understand the main provision of the principal Act;
- Understand the new amendments, additional provision and deletion of provisions ; and
- Understand the new liability of offences.

Trainer Profile

JERISON JEROME - OSH CONSULTANT

He is an HRDC Accredited, NIOSH-certified trainer and a DOSH-registered Safety and Health Officer (OYK-SHO). He has made significant contributions across multiple industries, including manufacturing, forest operations, and palm oil plantations. Jerison's expertise is demonstrated through his leadership in crucial safety initiatives, such as the SOHELP program, where he effectively implemented safety measures across three mills, and his contribution to the SOLVE4SME program, which aimed to improve safety standards in small and medium enterprises.

His dedication to enhancing safety in the forestry sector led him to develop the Train-The-Trainer module specifically tailored for forestry operations in Sarawak, ensuring that industry professionals are well-equipped with the knowledge and skills necessary for maintaining high safety standards. Jerison's influence extends beyond industry practice; he actively bridges the gap between academia and industry as a member of the Industry Advisory Board for the Bachelor of Science (Health, Safety, and Environment) program at Curtin University Malaysia. Currently he serve MEF by providing advisory services to MEF members in OSH legal requirement and best practices.
