

AI-POWERED TALENT SEARCH AND SOURCING TOOLS

6 & 7 APRIL 2026 | 9.00AM - 5.00PM |
MEFA TRAINING CENTER, PJ

Course Overview

The rapid advancement of AI is transforming how organizations attract, identify, and engage talent.

This training enables participants to gain AI-powered talent search and sourcing tools, enabling recruiters and hiring managers to enhance candidate quality, reduce time-to hire, and minimize unconscious bias in recruitment decisions.

Participants will gain a clear understanding of how AI is used across the recruitment lifecycle from sourcing and screening to talent matching while also learning best practices, ethical considerations, and compliance requirements in the Malaysian context.

Who Should Attend

- Human Resource Managers and Executives
- Talent Acquisition/ Recruitment Specialists
- Hiring Managers and HOD

Learning Outcomes

- Understand the role of AI and its impact on modern talent search and sourcing practices
- Apply AI-powered tools and techniques to improve recruitment efficiency, talent matching, and candidate sourcing
- Evaluate and select appropriate AI recruitment tools while ensuring ethical use, fairness and data privacy compliance
